SECTION IV - FIRE AND EXPLOSION HAZARD DATA	
FLAMMABILITY CLASSIFICATION: OSHA Class IB FLASH POINT 40°F. TCC LEL 1.  DOT Paint, Flammable Liquid, (UN1263)	
SPECIAL FIREFIGHTING PROCEDURES: Water spray may be ineffective. If water is used, fog nozzles are preferred. Water may be used to cool closed containers to prevent pressure buildup and possible autoignition or explosion when exposed to extreme heat.	
SECTION V - HEALTH HAZARD DATA	
EFFECTS OF OVEREXPOSURE: Can cause irritation to skin, eyes, and respiratory tract. Symptoms may be watering of eyes, dryness of throat, coughing, headache, tightness in chest or burning sensation. Allergic reactions may occur in some individuals. Headache, dizziness or nausea may be experienced by some as a result of exposure to solvents.	
MEDICAL CONDITIONS PRONE TO AGGRAVATION BY EXPOSURE: Persons with asthmatic type conditions, chronic bronchitis or other chronic respiratory diseases or recurrent skin eczema or sensitization should be excluded from working with this product.	
IMARY ROUTE(S) OF ENTRY: X DERMAL X INHALATION INGESTION	
MERGENCY AND FIRST AID PROCEDURES: Eye Contact; Flush with water for 15 minutes. Consult physician. Skin Contact: Wash affected area with soap and water. Remove contaminated clothing. Consult physician. Inhalation: Remove to fresh air. Consult physician. Ingestion: Drink water to dilute. Do not induce vomiting. Consult physician	n.

#### SECTION VI - REACTIVITY DATA

STABILITY: UNSTABLE X STABLE

'AZARDOUS POLYMERIZATION: MAY OCCUR X WILL NOT OCCUR

AZARDOUS DECOMPOSITION PRODUCTS: By fire - CO, CO, nitrogen oxides, traces of HCN, HDI.

CONDITIONS TO AVOID: Contact with moisture and other materials which react with

isocyanates. Temperature above maximum storage temperature.

Avoid exposure to heat, sparks, or open flames.

INCOMPATIBILITY (MATERIALS TO AVOID)

Avoid contact with water, alcohols, amines, strong bases, metal compounds or surface active materials. Avoid contact with strong oxidizing agents.

### SECTION VII - SPILL OR LEAK PROCEDURES

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED: Evacuate non essent personnel. Remove all sources of ignition (sparks, flames, hot surfaces). Ventilate the area. Equip clean up crew with self contained breathing apparatur. Dike spill. Cover sawdust, vermiculite, Fuller's earth. Collect material in open containers. WASTE DISPOSAL METHOD

Conform to federal, state, and local regulations. Empty containers must be handled carefully due to product residue and flammable solvent vapor.

# SECTION VIII - SAFE HANDLING AND USE INFORMATION

RESPIRATORY PROTECTION: In outdoor or open areas use NIOSH approved mechanical filterespirator. In restricted ventilation areas, use NIOSH approved chemical/mechanical filterespirators and particulates. In confined areas use NIOSH approved air line type respirators or hoods.

VENTILATION: Must be sufficient in volume and pattern to keep contaminant concentration

below TLV (NIOSH) or PEL (OSHA).

PROTECTIVE GLOVES: Required, butyl rubber recommended.

EYE PROTECTION: Required. Use goggles, face shields or safety eyewear with sideshields. OTHER PROTECTIVE EQUIPMENT: Protective creams where skin contact is likely. HYGIENIC PRACTICES: Wash hands before eating or using bathroom. Remove and wash contaminated clothing before reuse. Wear chemical resistant boots.

# SECTION IX - SPECIAL PRECAUTIONS

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING: Do not store above 100°F. Store large quantities only in buildings designed to comply with OSHA 1910.106. Keep containers closed and upright to prevent leakage. Do not store or use near heat, sparks, or flames.

OTHER PRECAUTIONS: Avoid prolonged or repeated contact with solvent vapors or spray mist during application, curing, or clean-up.
